

Newspapers

Many people in Newton travel daily just to buy a newspaper.

The Chairman of the Parish Council, Henry Hurrell, has had talks with the shop in Harston to discuss the feasibility of having newspapers delivered in bulk to a central point in the village from which people could collect their paper.

This would save miles of travel and the cost would be under a £1.00 per week.

It is proposed to have a suitable container outside the Village Rooms where papers, bearing peoples' names, would be left for collection, when ever convenient during the day.

It would be the responsibility of individuals to tell the Harston shop which paper/s are required and to pay the shop directly, and also accept the that there would be a small element of trust that an individual's paper would not be taken by someone else.

If there were sufficient numbers of papers the shop may consider delivery to individual houses.

In order to assess what may be possible please complete the tear – off strip and return to Joe Oakes at 14 Offa Lea.
